Outline of the Consolidated Financial Results through the Second Quarter (Six Months) of the Fiscal Year Ending March 31, 2017 (FY2017.3) and Outlook for Consolidated Performance for the Full Fiscal Year

■ Consolidated Performance through the Second Quarter (Six Months)

Year-on-Year Decrease in Net Sales, but Increase in Operating Income for the Fifth Consecutive Quarter

Through the second quarter of FY2017.3 (April 1, 2016 to September 30, 2016), sales performance was favorable, but net sales decreased ¥18.3 billion (-8.4%) compared with the same period of the previous fiscal year, to ¥199.2 billion. This was because of the negative effect of foreign currency fluctuations, which amounted to ¥22.4 billion and the negative effect of the transfer of the Yamaha Music School business, which amounted to ¥4.2 billion.

Regarding income, although foreign currency fluctuations had a negative impact of ¥6.3 billion, operating income rose ¥3.4 billion (+16.1%) over the same period of the previous year, to ¥24.6 billion, and ordinary income expanded ¥2.2 billion (+10.1%), to ¥24.5 billion. In particular, operating income in Yamaha's main businesses of musical instruments and audio equipment rose to a record high level, respectively, and operating income through the second quarter rose for the fifth consecutive quarter.

Although business structural reform expenses of ¥4.9 billion were reported as an extraordinary loss in connection with conclusion of operations at Yamaha Resort "Tsumagoi," which was announced on September 2, 2016, net income attributable to the owners of the parent rose ¥9.8 billion (+56.3%), to ¥27.2 billion, accompanying the reporting of deferred tax assets of ¥13.6 billion.

> Sales and Operating Income/Loss by Business Segment

Figures in parentheses are percentage changes from the same period of the previous fiscal year, except as indicated.

Musical Instruments

Sales of ¥128.5 billion (–9.8% year on year) and Operating Income of ¥18.8 billion (+11.9% year on year)

Sales of acoustic pianos in Europe and China were favorable, and sales of guitars were strong in all regions. Sales of digital pianos and other digital musical instruments and wind instruments continued to be robust.

Although sales of the segment as a whole continued to be generally favorable, foreign currency fluctuations had a negative impact of \$15.2 billion, and the transfer of the operations of Yamaha Music School business in Japan to the Yamaha Music Foundation in the second quarter of the previous fiscal year resulted in a decline in sales of \$4.2 billion. As a consequence, sales of the musical instruments segment decreased \$13.9 billion (-9.8%), to \$128.5 billion.

Operating income increased \(\xi\)2.0 billion (+11.9%), to \(\xi\)18.8 billion, thus absorbing losses due to foreign currency fluctuations of \(\xi\)5.1 billion.

Audio Equipment

Sales of ¥53.0 billion (-4.1% year on year) and Operating Income of ¥4.8 billion (+40.0% year on year)

Sales of audio products and professional audio equipment expanded in Japan and held firm overseas. Sales of ICT (information and communication technology) equipment expanded in Japan but were weak in overseas markets.

Sales in this segment as a whole decreased $\S2.3$ billion (-4.1%), to $\S53.0$ billion, because of the negative impact of $\S6.9$ billion due to foreign currency fluctuations.

Operating income rose ¥1.4 billion (+40.0%), to 4.8 billion, thus absorbing the negative impact of ¥1.3 billion due to foreign currency fluctuations.

Others

Sales of ¥17.7 billion (-10.8% year on year) and Operating Income of ¥1.0 billion (+3.5% year on year)

In the Others business segment, sales of electronic devices and automobile interior wood components were weak; as a result, sales of the segment decreased \$2.1 billion (-10.8%), to \$17.7 billion.

Operating income increased ¥34 million (+3.5%), to ¥1.0 billion.

Outlook for Consolidated Performance for the Full Fiscal Year

Although the exchange rates to be assumed have been reviewed, forecasts for operating and ordinary income remain unchanged.

The Company's forecasts for consolidated performance for the full fiscal year ending March 31, 2017, released on August 2, called for net sales of \(\frac{\text{\text{4}}11.0}{\text{ billion (-5.6%)}}\), operating income of \(\frac{\text{\text{\text{4}}2.0}}{\text{ billion (+3.3%)}}\), ordinary income of \(\frac{\text{\text{\text{4}}2.0}}{\text{ billion (+2.7%)}}\), and net income attributable to the owners of the parent of \(\frac{\text{\text{\text{4}}45.5}}{\text{ billion (+39.4%)}}\).

In the amended consolidated outlook, following a review of exchange rates to be assumed*, the forecast for net sales has been revised downward, to ¥402.0 billion (–7.7%); however, forecasts for operating income and ordinary income remain unchanged. In addition, the Company reported an extraordinary loss of ¥4.9 billion in

business structural reform expenses in connection with the conclusion of operations at Yamaha's Resort

"Tsumagoi." The forecast for net income attributable to the owners of the parent has been revised downward to

¥41.0 billion (+25.6%).

*The foreign currency exchange rates used in computing these forecasts have been changed from ¥105 to US\$1

and ¥115 to €1 in the previous forecast, to ¥100 to US\$1 and ¥110 to €1

Notes:

1. Sales and income/loss figures in the text have, in principle, been rounded to the nearest ¥0.1 billion.

2. Beginning with the first quarter of FY2017.3, the Company has reviewed its business segment classification, and the

Electronics Devices business has been presented in the Others segment. Figures and rates of increase/decrease year on year

have been calculated using the post-reclassification method.
